Description: TITLE: Energy Conservation Program: Energy Conservation Standards for Consumer Conventional Cooking Products

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy

ACTION: Supplemental notice of proposed rulemaking and announcement of public meeting

¹ This information can be provided by including a website address, a pdf attachment, or other information on where the text of the final/modified measure and/or interpretive guidance can be obtained.

SUMMARY: The [Energy Policy and Conservation Act, as amended](#) ("EPCA"), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including consumer conventional cooking products. EPCA also requires the U.S. Department of Energy ("DOE") to periodically determine whether more-stringent standards would be technologically feasible and economically justified, and would result in significant energy savings. In this supplemental notice of proposed rulemaking ("SNOPR"), DOE proposes new and amended energy conservation standards for consumer conventional cooking products, and also announces a public meeting to receive comment on these proposed standards and associated analyses and results.

DATES: Meeting: DOE will hold a public meeting via webinar on Tuesday, 31 January 2023, from [1:00 p.m. to 4:00 p.m. Eastern Time](#). See section VII of this document, "Public Participation," for webinar registration information, participant instructions, and information about the capabilities available to webinar participants.

Comments: DOE will accept comments, data, and information regarding this SNOPR no later than 3 April 2023. Comments regarding the likely competitive impact of the proposed standard should be sent to the Department of Justice contact listed in the ADDRESSES section on or before 3 March 2023.

This supplemental notice of proposed rulemaking and announcement of public meeting and previous actions notified under the symbol [G/TBT/N/USA/998](#) are identified by Docket Number EERE-2014-BT-STD-0005. The Docket Folder is available on Regulations.gov at <https://www.regulations.gov/docket/EERE-2014-BT-STD-0005/document> and provides access to primary and supporting documents as well as comments received. Documents are also accessible from Regulations.gov by searching the Docket Number. WTO Members and their stakeholders are asked to submit comments to the [USA TBT Enquiry Point](#). Comments received by the USA TBT Enquiry Point from WTO Members and their stakeholders will be shared with the regulator and will also be submitted to the [Docket](#) on Regulations.gov if received within the comment period.
